ACTA BOTANICA NEERLANDICA

Published by the
KONINKLIJKE NEDERLANDSE BOTANISCHE VERENIGING
(Royal Botanical Society of the Netherlands)

Volume XVI

1967
PRINTED BY H. VEENMAN & ZN. – WAGENINGEN

The ACTA BOTANICA NEERLANDICA are the continuation of the "Nederlandsch Kruidkundig Archief" (1846–1951) and the "Recueil des Travaux Botaniques Néerlandais" (1904–1951).

Editorial Committee
A. L. STOFFERS, President – H. P. BOTTELIER – S. J. VAN OOSTSTROOM

No part of this issue may be reproduced in any form, by print, photoprint, microfilm or any other means without written permission from the publisher.

CONTENTS

L. ANKER, Geotropism and tip regeneration of the Avena coleoptile in the presence of gibberellic acid 205
F. D. BOESEWINKEL and F. BOUMAN, Integument initiation in Juglans and Pterocarya 86
G. W. F. H. BORST PAUWELS, A study of the factors causing a decrease in the rate of phosphate uptake by yeast during phosphate accumulation . . 125
J. BRUINSMA, Uptake and translocation of 4, 6-dinitro-o-cresol (DNOC) in young plants of winter rye (Secale cereale.) 73
J. BRUINSMA, Effects of auxins and cytokinins on the growth of discs of parenchymous tissues 153
M. N. CHAUDHRI, A new name for a Turkish species of Paronychia . . . 32
J. VAN DIE and C. R. VONK, Selective and stereo-specific absorption of various amino acids during xylem translocation in tomato stems . . . 147
J. DULLAART, Quantitative estimation of indoleacetic acid and indolecarboxylic acid in root nodules and roots of Lupinus luteus L. 222
C. M. HESS and B. J. D. MEEUSE, The effect of various uncouplers on the respiration of appendix tissue slices of Sauromatum guttatum Schott (Araceae) at various stages of anthesis 188
B. HUISINGA, Root-induction in Avena mesocotyls by indole acetic acid . . 123
B. HUISINGA, Influence of irradiation on the distribution of growth in dark-grown Avena seedlings 197
C. M. KARSSEN, The light promoted germination of the seeds of Chenopodium album L. I. The influence of the incubation time on quantity and rate of the response to red light 156
C. KOLLÖFFEL, Respiration rate and mitochondrial activity in the cotyledons of Pisum sativum L. during germination 111
H. KONINGS, On the mechanism of the transverse distribution of auxin in geotropically exposed pea roots 161
M. KROH and A. J. MUNTING, Pollen-germination and pollen tube growth in Diplotaxis tenuifolia after cross-pollination 182
A. J. M. LEEUWENBERG, Notes on American Loganiaceae I Revision of Plocosperma Benth. 56
A. J. M. LEEUWENBERG, Notes on American Loganiaceae II Revision of Peltanthera Benth. 143
H. F. LINSKENS and J. M. L. MULLENEERS, Formation of "Instant pollen tubes" 132
W. LOUWERSE, The influence of the plant nutrition status on bleeding and salt uptake 42
E. VAN DER MAAREL and J. LEERTOUWER, Variation in vegetation and species diversity along a local environmental gradient 211
A. D. J. MEEUSE, Again: The growth habit of the early Angiosperms . . . 33
G. J. NIEMANN, A red-light-dependent compound in Pisum sativum . . . 180

B. POLAK, Palynology of the peat deposits alongside the Leuvenum Brook . 62
H. P. J. R. ROGGEN, Changes in enzyme activities during the progame phase in Petunia hybrida 1
J. SCHRAUWEN and H. F. LINSKENS, Mass culture of pollen tubes 177
TH. J. STOMPS, Einige merkwürdige Anomalien 240
P. M. L. TAMMES, C. R. VONK and J. VAN DIE, Studies on phloem exudation from Yucca flaccida Haw. VI. The formation of exudate-sucrose from supplied hexoses in excised inflorescence parts 244
O. G. TÁNCZOS, Prevention of chilling injury in cucumber leaves 235
H. DE VRIES, G. BREDEMEYER and W. HEINEN, The decay of cutin and cuticular components by soil microorganisms in their natural environment . . 102
W. J. J. O. DE WILDE, Une espèce nouvelle d'Adenia (Passifloracées) d'Afrique équatoriale occidentale 231
